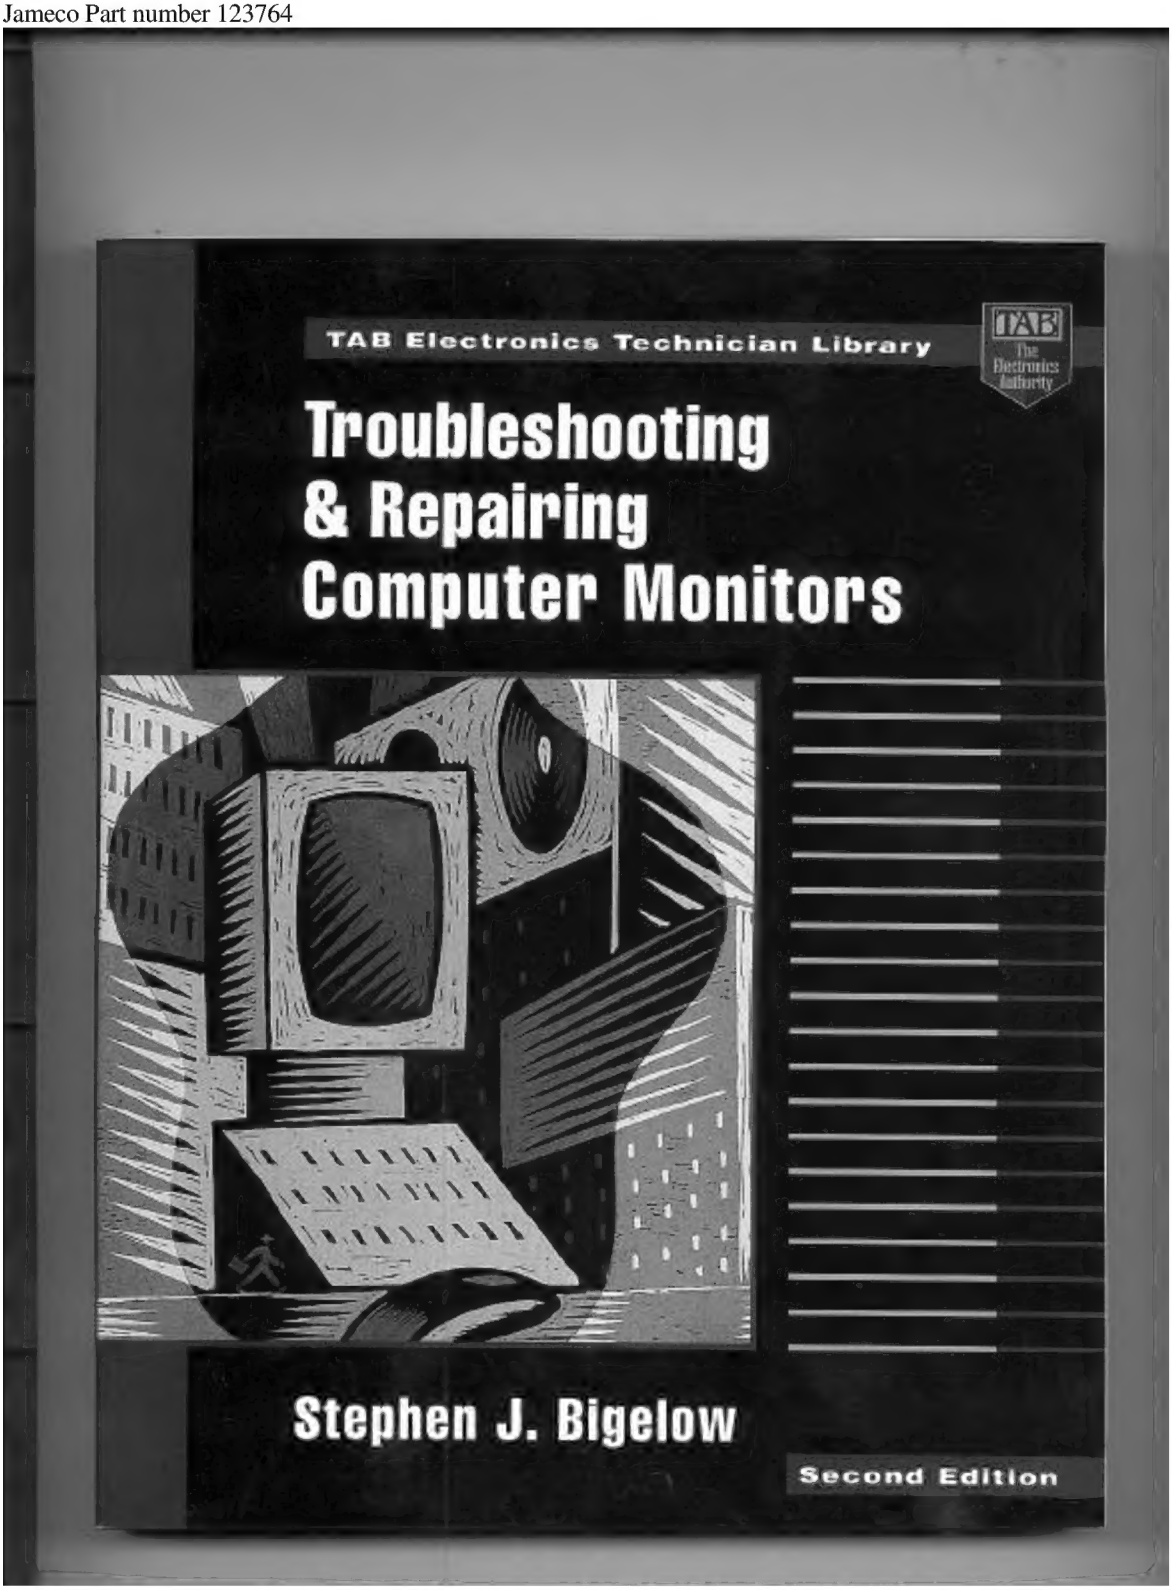
Jameco Part number 123764



Jameco Part number 123764

CONTENTS

Preface XV

Acknowledgments XVII

1 Contemporary computer monitors *1*

Understanding monitor specifications *1*

CRT *2*

Pixels and resolution *3*

Triads and dot pitch *3*

Shadow and slot masks *4*

Convergence *5*

Pincushion and barrel distortion *6*

Horizontal scanning, vertical scanning, raster, and retrace *6*

Interlacing *8*

Bandwidth *10*

Swim, jitter, and drift *10*

Brightness *11*

Centering *11*

Video signal *11*

Synchronization and polarity *12*

Power *12*

Environment *12*

Evaluating a new monitor *13*

Understanding video signals *13*

Inside today's CRT displays *18*

Inside today's liquid crystal displays *20*

Jameco Part number 123764

2 CRT monitor basics *22*

Monochrome monitors *22*

The monochrome CRT *23*

Video drive circuit *29*

Vertical drive circuit *30*

Horizontal drive circuit *31*

High-voltage circuit *33*

Power supply *34*

Color monitors *35*

The color CRT *35*

Video drive circuits *38*

Vertical drive circuit *39*

Horizontal drive circuit *40*

High-voltage circuit *42*

Power supply *43*

Understanding power-saving monitor systems *43*

The video breakthrough *43*

Energy star compliance *44*

Conservation techniques *45*

DPMS *45*

Nutek *46*

Proprietary techniques *47*

Configuration and maintenance issues *47*

DPMS issues *47*

Nutek issues *48*

The ultimate power conservation *48*

Monitor assembly *49*

Warnings, cautions, and human factors *52*

AC voltages *53*

High voltages *55*

X radiation *56*

Carrying the CRT *57*

CRT troubleshooting *58*

3 Knowing the tools ***61***

Tools and materials *62*

Hand tools *62*

Soldering tools *63*

Multimeters *64*
Meter setup *66*
Checking test leads *66*
Measuring voltage *67*
Measuring current *68*
Measuring resistance *69*
Measuring capacitors *70*
Checking diodes *73*
Checking transistors *75*
Checking integrated circuits *77*
Circuit analyzer *77*
Logic probes *79*
Reading the logic probe *79*
Oscilloscopes *80*
Oscilloscope startup procedure *81*
Monitor cautions *83*
Measuring voltage *83*
Measuring time and frequency *85*
High-voltage probes *86*
Probe safety *87*
CRT testers-restorers *87*
Monitor testers-analyzers *89*
Network Technologies, Inc. *89*
Sencore *90*
Computer-aided troubleshooting *90*
Resolve database *91*
IMPACT *91*

4 Video adapters *92*
Understanding conventional video adapters *92*
Text versus graphics *94*
ROM BIOS *94*
Video memory versus video mode *95*
Reviewing video display hardware *95*
MDA *96*
CGA *97*
EGA *100*
PGA *101*
MCGA *101*

VGA *102*
8514 *103*
SVGA *103*
XGA *104*
Graphics accelerators and speed factors *104*
Video speed factors *107*
Accelerator ICs and chipsets *107*
Video memory *107*
Video BIOS and drivers *108*
The RAMDAC *108*
Bus architectures *109*
Video feature connectors *111*
Troubleshooting video adapters *111*
Isolating the problem area *111*
Component-level repairs *112*
Symptoms and solutions *113*

5 CRT testing and alignment *117*
Before you begin *117*
Testing versus alignment *117*
Know the warranty *118*
Getting from here to there *119*
High-voltage cautions *120*
The mirror trick *120*
Making an adjustment *121*
Tests and procedures *122*
High-voltage test and regulation *122*
Screen control *124*
Focus *124*
Dynamic pincushion *125*
Horizontal phase *126*
Horizontal and vertical centering *127*
Horizontal and vertical size *128*
Horizontal and vertical linearity *129*
Static convergence *131*
Dynamic convergence *133*
Color purity *135*
Color drive *137*
Cleaning/vacuuming *138*

Jameco Part number 123764

6 Power supply troubleshooting *139*
Linear power supplies *139*
Transformers *140*
Rectifiers *141*
Filters *142*
Regulators *144*
Troubleshooting linear power supplies *147*
Switching power supplies *152*
Concepts of switching regulation *153*
Troubleshooting switching power supplies *155*
Backlight power supplies *163*
Supply requirements and principles *163*
Troubleshooting backlight supplies *164*
High-voltage power supplies *165*
Troubleshooting high-voltage power supplies *166*

7 Monochrome monitor troubleshooting *168*
The monochrome circuits *168*
Video drive circuit *168*
Vertical drive circuit *170*
Horizontal drive circuit *171*
The flyback circuit *173*
Troubleshooting the monochrome monitor *175*
Wrapping it up *175*
Postrepair testing and alignment *176*
Symptoms and solutions *176*

8 Color monitor troubleshooting *188*
The color circuits *188*
Video drive circuits *189*
Vertical drive circuit *192*
Horizontal drive circuit *194*
The flyback circuit *195*
Construction *196*
Troubleshooting the color monitor *196*
Wrapping it up *196*
Postrepair testing and alignment *198*
Symptoms and solutions *198*

9 Flat-panel displays ***214***
Flat-panel display characteristics *214*
Pixel organization *214*
Aspect ratio *216*
Viewing angle *216*
Contrast *218*
Response time *218*
Handling precautions *218*
Liquid crystal display technology *219*
TN LCDs *220*
STN LCDs *221*
NTN LCDs *222*
FTN LCDs *224*
Viewing modes *225*
Backlighting *226*
Passive and active matrix operation *228*
Color LCD technology *231*
Passive matrix color *231*
Active matrix color *233*
Dual-scan color *234*
Plasma display technology *235*
Construction and operation *235*
Troubleshooting flat-panel displays *237*
A display system *237*
Symptoms and solutions *239*

10 Using MONITORS for diagnostics ***244***
All about MONITORS 2.01 *244*
Obtaining your copy of MONITORS *246*
Installing and starting from the floppy drive *246*
Installing and starting from the hard drive *247*
Using MONITORS *248*
Testing your video adapter *249*
Choosing video test modes *250*
Color bars *252*
Convergence test (crosshatch) *252*
Convergence test (dots) *254*
Linearity test *255*

Phase test *256*
Focus test *256*
The purity tests *257*
Blank raster test *258*
High-voltage test *258*
Monitor burn-in *258*
When trouble occurs *259*
Check the screen mode *259*
When problems persist *260*
Making MONITORS better *260*

A Monitor troubleshooting index *261*

B Monitor glossary *273*

C Index of resources *282*
Monitor manufacturers *282*
Video adapter/accelerator board manufacturers *283*
Monitor service providers *285*
Parts, materials, and test instruments *286*

Index *289*

Jameco Part number 123764

Computer Hardware

More than 25,000 copies sold!

Fast Solutions to Computer Monitor Problems!

- Covers the latest technology
- Features special step-by-step troubleshooting flowcharts
- Exploded-view illustrations show you just what to do
- Symptoms and solutions completely explained

This immensely popular, best-selling manual has been completely updated and improved to make sure it stays at the top of the chart--the best-selling, best available book on computer monitor diagnosis and repair. Now featuring flowcharts and detailed schematics, block diagrams, and exploded-view illustrations throughout, it offers comprehensive coverage of the latest trends and newest technologies in this lucrative area of electronics service.

You get complete coverage of:

Contemporary Monitors · CRT Monitors · Tools of the Trade · Video Adapters · CRT Testing and Alignment · Power Supply Troubleshooting · Monochrome Monitors · Color Monitors · Flat-Panel Displays · Using Monitors 2.0 for Diagnosis · Index of Resources · Full Glossary of Terms

Author Stephen Bigelow provides you with specific maintenance and repair techniques that will *save you time and make sure the job gets done right*. You'll also find complete details on how to use test equipment; troubleshooting tips, guidelines, and methods; and a full chapter devoted to flat-panel displays.

A volume in the *TAB Electronics Technician Library*
